WORK EXPERIENCE

Genesys Tech Hub

FrontEnd Developer

Enugu, Enugu

Aug 2023 - Sep 2024

- Engineered responsive web components using React, leading to a 35% increase in load speed and significantly enhancing user experience across multiple devices.
- Partnered with UX/UI designers to implement design mockups, ensuring that 100% of components adhered to accessibility standards, thereby improving inclusivity for users.
- Executed thorough testing and debugging of web applications, driving a 25% reduction in reported bugs post-launch, which enhanced overall product quality and client satisfaction.
- Facilitated daily stand-up meetings and sprint planning, resulting in a 20% improvement in team communication, which accelerated project timelines and delivery.

Desitnet Smart Technology

Web Developer

Enugu, Enugu

Aug 2023 - Sep 2024

- Enhanced Product Features: Optimized product features by collaborating with cross-functional teams, boosting user engagement by 30% and customer satisfaction by 20%.

- Streamlined Development Process: Accelerated development process by implementing agile methodologies, reducing cycle time by 40%, leading to faster feature deployment and a 15% boost in team productivity.
- User-Centric Design: Conducted user research and usability testing, leading to redesigning key interfaces, which improved user retention rates by 25% and decreased churn by 15%.

PROJECTS

Mental Awareness App: Serene

Role: Team Lead

Technologies: React, Tailwind,

Description: Built Serene, a comprehensive mental health app offering habit tracking, therapist connections, and personalized resources. Designed for a seamless user experience with structured state management and local storage integration for session consistency.

GitHub: <https://github.com/idamvictor/serene.git>

Responsive Ecommerce Site

Role: Lead Developer

Technologies: React, Redux Tool Kit

Description: Led the development of an engaging e-commerce platform built with React and Redux Toolkit. The app includes a dynamic product catalog, shopping cart, and a favorites list, with features that keep user preferences intact using local storage. Streamlined user interactions by setting up clear state slices and created custom middleware to sync the cart and favorites, ensuring a smooth, consistent experience across sessions.
